Why New Hospital Badge Passes?

ACMC
ASHLEY COUNTY
MEDICAL CENTER

- ACMC has implemented new Visitor and Patient badge passes, because we care about you.

- The goal behind implementing this software is, for ACMC, to streamline a way to welcome and track visitors to increase safety measures and better protect their people, buildings, and valuable resources.

- ACMC is able to know exactly who is in the building and where they are supposed to be.

- Badge passes can also serve as a visual deterrent to anyone with the intention to cause trouble and prevent issues before they happen.

- The process is quick and only takes seconds.

- It allows ACMC to better secure visitor and patient records, rather than having a paper log book that anyone can look through when signing in.

- Using IDs/Driver's License to scan, ensures the person is who they say they are.
